

*Wisconsin 3000GT/Stealth International*

On behalf of all 3000GT and Stealth owners and enthusiasts worldwide, we'd like to welcome you to the Wisconsin 3000GT/Stealth International! We are excited to have you join and look forward to your participation in our chapters' events and growth.

Enclosed you'll find a windshield sticker along with some business cards. We hope you'll display the sticker proudly on the windshield of your 3000GT or Stealth and use the business cards to spread the word whenever and wherever you can.

As you know, while we had humble beginnings, we are trying to assemble and become a first class chapter. But to do that, we need *your* help. Because we're new, we have the opportunity to get the respect our cars deserve – respect from Porsche and BMW clubs, and the general public. Why is this important? This will open up many doors for us as a chapter relative to events, exposure and future benefits.

To reiterate, W3SI's mission is to assemble and organize a state chapter of 3000GT and Stealth owners and enthusiasts. Our chapter and website have been designed to:

- Provide a means of contact with other Wisconsin owners
- Offer a central location of resources and information concerning the 3000GT/Stealth (3/S) platform
- Locate "how to" instructions and procedures for do-it-yourself car diagnostics and repairs
- Supply links to repair shops and experienced tuners
- Offer information regarding performance upgrades
- Post details about upcoming events and gatherings to meet other 3/S owners around the state

We know it's all about the cars, so our gatherings will focus on that. We're hoping to involve everyone and anyone with tastes as diverse as road racers, drag racers, and car show buffs. But, we're also hoping you get more from your experience here and get to the know members a little more too. Each one has his/her own special talent and ability and brings something to the table. While our diversity will give us an edge as a chapter, it also gives you a resource as a person. Use it wisely.

Our goal is that we as a chapter have fun, share our knowledge and most of all – drive. And because we put this chapter together for you, please feel free to offer any suggestions or ideas you may have. Until then, here's looking forward to seeing you at our next event.

Sincerely,

Your W3SI Admin's
